Please find attached a revised copy of patent application 09/905,500.

We have corrected the listed informalities that cause the claims to be objected [1(a) - 1(e)].

In addition, based upon your recommendations, we rewrote claims 3 to 6 to match the figures and to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph.

Thank-you,

A handwritten signature in cursive script that reads "Brad Delanghe".
